

Project Design Phase-I
Proposed Solution Template

Date	01 Nov 2023
Team ID	NM2023TMID04500
Project Name	Blogging: Create a Blog using Wordpress

Proposed Solution Template:

Project team shall fill the following information in proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Many novice and prospective traders lack access to comprehensive, beginner-friendly trading resources. Users face challenges in understanding complex trading concepts and making informed trading decisions.
2.	Idea / Solution description	"Mr. Panakkar" offers a user-centric online platform with educational content, a community forum, and personalized features to empower novice traders. The solution provides in-depth educational resources, interactive tools, and community engagement to bridge the knowledge gap and guide traders to success.
3.	Novelty / Uniqueness	"Mr. Panakkar" stands out by offering a holistic learning experience, combining content, community, and personalization for traders. Personalized user profiles and advanced data analytics provide tailored recommendations and support.
4.	Social Impact / Customer Satisfaction	"Mr. Panakkar" is committed to increasing financial literacy and trading success, helping users achieve their goals and boost their financial well-being. A supportive community fosters engagement, knowledge sharing, and mentorship.
5.	Business Model (Revenue Model)	Revenue can be generated through various channels, including premium content or courses for advanced users. Affiliate marketing partnerships with trading platforms and potential advertising or sponsorships from trading-related companies.
6.	Scalability of the Solution	"Mr. Panakkar" can scale by expanding content offerings, diversifying revenue streams, and providing multilingual support for a global audience.

	Scalability of the solution	Advanced machine learning-driven personalization can accommodate a growing user base with tailored content and recommendations.
